ITIHAAS celebrates World Heritage Day every year to raise the awareness about the preserving human heritage, diversity of the world's built monuments and heritage sites. This year the students were invited for a competition that involved creating a 3-D exhibit from waste material on any UNESCO World heritage site in India. The teams researched and picked any 3 sites and from those 3 they were asked to create the exhibit on any one.

The students were divided into two categories i.e. the junior school (grade 3 to 5) and Middle school (grade 6 to 8). They worked in teams.
